PROFILE

Product designer with 5+ years of experience turning complex requirements into clear, intuitive experiences. Leads design from problem definition through delivery, connecting user needs, business goals, and technical constraints. Brings a thoughtful approach to interaction design, accessibility, and consistent experiences across products.

EXPERIENCE

Global Payments

Senior UX Designer
October 2026 – Present

UX Designer II
May 2021 – September 2026

- **End-to-end ownership:** Own product design for a web application spanning onboarding, activity monitoring, troubleshooting, and administration, translating complex requirements into cohesive workflows.
- **Workflow simplification:** Led the design modernization of a multi-step onboarding experience, organizing configuration requirements into guided steps with contextual support.
- **Information architecture:** Collaborated with engineers, content writers, and stakeholders to improve navigation and technical content discovery across a self-service portal and API Explorer.
- **Regional experiences:** Supported internal Salesforce onboarding across the UK, Canada, and Asia-Pacific, accounting for regional needs within a shared product experience.
- **Consistency at scale:** Initiated and led a UX Reference Library with design leaders to support consistent decisions across internal applications; contributed to the design system.
- **Cross-functional delivery:** Partnered with engineers through regular design reviews to clarify interactions, address implementation constraints, and maintain design quality through delivery.
